Hp Officejet Pro 8600 Drivers Windows 10

I have an ASUS notebook computer from 2006 My printer is an HP Officejet pro 8600.. I recently installed Windows 10 and my printer worked fine for a couple of weeks.. Now, it won't print In device manager, I get a message saying 'no drivers are installed for this device.. My printer and my computer are both connected to a wireless network using a Cisco router..' In the control panel for devices and printers, the printer appears as the default printer, but I get a message saying the printer is 'not connected.
